EXPERIENCE

07/2021 - Present • SENIOR UX DESIGNER

Plansource Operations

As a UX Designer, I collaborate closely with product, engineering and other stakeholders to research on new ideas or features and help them visualize in a format that a customer can see and experience. I played a key role in the redesign and planning of the product design system, supporting the unification of two systems and the introduction of principles that enhanced consistency, accessibility, scalability, and design efficiency.

ACCOMPLISHMENTS

- Led a complete revamp of the HSA experience, simplifying employer setup while ensuring IRS compliance and clear contribution guidelines for employees. Reduced admin **average task time from 38 to 21 minutes and a 38% drop in support tickets**. Helped in acquiring new clients increasing **revenue by 15%**, who were looking for customizable employee/employer contributions, as well as simplified YTD projection estimates.
- Delivered prebuilt templates and automated messaging flows, **reducing average task time from 69 minutes to 47 minutes and increasing feature CSAT from 2.9 to 4.1**, while enhancing clarity and consistency in employee communications.
- Partnered with users and stakeholders to redesign the employee experience into a responsive, intuitive platform, resulting in **23% more engagement, 22% improved enrollment rates, and 15% fewer support requests**.
- Designed and launched an AI + voice-enabled chatbot to handle benefit queries and create voice-based life-event workflows, **reducing human agent handoffs by 13% in six months** while improving operational efficiency and user satisfaction. These enhancements contributed to a **higher NPS score than in previous years**.
- Created a scalable, role-based checklist workflow for client onboarding with **32+ steps**, streamlining navigation by reducing clicks, consolidating views, and unifying pages into interactive tabs. This **cut onboarding time by 30 days**, self-service for reseller partners (**driving 17% revenue growth**), **improved retention by 21%**, and **lowered acquisition costs by 12%**.

EXPERIENCE

- 08/2016 - 07/2021 • SENIOR UX DESIGNER
Dataway Solutions
Guided end-to-end UX design for government and IoT projects, delivering a next-gen IoT platform and the MeitY-funded "Emergency Citizen Safety" Initiative.
 - Established a centralized command center monitoring 2,300+ AI-enabled cameras and deployed a face-recognition attendance system across 400+ skill centers, significantly reducing attendance fraud.
- 10/2013 - 06/2016 • SR. WEB & GRAPHICS DESIGNER
Paskon Inc
I was a part of the product team, I created low-fidelity prototypes, detailed mockups, design principles, and web/graphic designs. I translated inputs from business and creative directors into simple, elegant solutions while collaborating closely with product managers, developers, and marketing teams.
- 11/2012 - 10/2013 • WEB & GRAPHICS DESIGNER
Wifi Networks
Designed and delivered various projects, including print ads, branding, web, Email promotions, illustrations, iconography and motion graphics video.
- DESIGN CONSULTANT
Startup from the Himalayas
I helped transform a startup into a lean, design-led organization aligned with the **United Nations Sustainable Development Goals (UN SDGs)**. I conducted user research and diary studies to ground decisions in user needs, leading to faster design cycles and stronger adoption. Additionally, I guided branding for a new concept, and collaborated with the Founder to shape the vision and product roadmap, accelerating time-to-market.
